Simple Knit Scarf Pattern

Color A = red Color B = white

With color A cast on 100 stitches. Place marker at beginning of round and follow the stripe sequence below.

Simple Knit Scarf Stripe Sequence

Simply start with color A in first column and work 26 rounds in red, then add color B and knit 14 rounds in white and so on. Work your way down the column. Then work your way down the second column. This worksheet allows you to mark off the color rounds so you won't lose your place. If you'd like to make your scarf longer just start over again.

When you reach the length you want bind off all stitches.

Finish: Turn your scarf inside out and weave in ends to prevent any holes from forming.

Once your finished weaving in the ends, you can seam both ends of your scarf. Or if you're going to add fringe to the ends the fringe will close the ends nicely.
